SUMMARY

I am a dedicated Frontend Developer with experience in building dynamic, scalable web applications using React, Tailwind CSS, and modern frontend technologies. I excel in crafting responsive, user-friendly interfaces and optimizing performance for seamless user experiences. Passionate about delivering pixel-perfect designs and efficient UI components, I thrive in collaborative environments, consistently developing solutions that enhance usability and engagement.

Gujarat Technological University

📅 2023 - 2026

GPA
7.63 / 10

Diploma in Computer Engineering

Gujarat Technological University

📅 2020 - 2023

GPA
8.32 / 10

PROJECTS

Ahmedabad Live

The Ahmedabad Complaint Management System is a dynamic platform for residents to submit and track civic complaints, ensuring real-time responsiveness. It enhances communication with authorities through automated updates and a user-friendly interface, fostering transparency, accountability, and efficient problem resolution.Ahmedabad's residents and overall urban management.

Online Crime Reporting System

Developed a web-based platform enabling citizens to report crimes easily and track the progress of their reports. The system includes features like real-time updates, geo-tagging of crime locations, and secure data handling. Built using Django, SQLite, and REST APIs, it enhances transparency and efficiency in crime reporting.

TECH STACK

HTML	CSS	JavaScript	React

TailwindCSS	Bootstrap	Java	C

C++	PHP	MySQL	Python

ACHIEVEMENTS

</> Hackout'24 - DAIICT (2024)

Developed "AgriGear Exchange," a Django‑based farm equipment rental marketplace during Hackout'24. Implemented key features such as user authentication, equipment listings, a booking system, and payment integration. Successfully advanced to the second round among competing teams

🎓 React Development Certification Course- Programming Hub(Google)

Completed a 10-hour course covering the fundamentals of React, including component-based development, state management with useState, and navigation using React Router. Gained hands-on experience in building dynamic and interactive web applications.
