PROFILE SUMMARY

Aspiring PHP Developer pursuing B.E after completing a Diploma in Computer Engineering (2023). Proficient in PHP, MySQL, HTML, CSS, JavaScript, jQuery, and AJAX, with hands-on experience in developing dynamic, secure, and user-friendly web applications. Skilled in integrating frontend interfaces with backend logic, managing databases, and writing clean, efficient, and maintainable code. Passionate about backend development and eager to contribute to building scalable and high-performance web solutions.

EXPERIENCE

Simform Software LLP (JAN 2026 , Present)

Worked as a Trainee Engineer at Simform, developing dynamic web applications using PHP, MySQL, JavaScript, and AJAX. Built secure CRUD-based modules, integrated frontend and backend components, and worked with Git/GitHub and Linux development environments. Gained practical experience with Laravel and modern web development practices while collaborating in a professional development workflow.

EDUCATION

Gujarat Technological University

B.E in Computer Science and Engineering

CGPA: 8.43 (Current)

Ahmedabad, Gujarat

Expected Graduation, May 2026

Gujarat Technological University

Diploma in Computer Engineering

CGPA: 8.34

Ahmedabad, Gujarat

Graduated, May 2023

SKILLS & Technologies

Frontend Development: HTML, CSS, JavaScript, React.js, Tailwind CSS, Bootstrap, jQuery, AJAX

Backend Development: PHP, Laravel, RESTful APIs, CRUD Operations, MVC Architecture

Programming Languages: PHP, JavaScript, C, C++, Java, Python

Databases: MySQL, SQLite

Servers & Environment: Apache, Nginx, Linux, XAMPP

Tools & Technologies: Git, GitHub, Vite, Parcel

PROJECTS

Course Management System (Tech stack: PHP, MySQL, JavaScript, Bootstrap, HTML, CSS, AJAX)

Developed a web-based course management platform to manage courses, students, enrollments, and academic activities efficiently.

- Developed a full-stack Course Management System with secure authentication and role-based access for admins, instructors, and students using PHP and MySQL.
- Implemented CRUD operations for courses, enrollments, assignments, and progress tracking with AJAX and JavaScript for real-time interactivity.
- Designed a responsive and user-friendly interface using Bootstrap with seamless accessibility across devices.
- View Source Code: [Course Management System](#)

Locify (Tech stack: React.js, Tailwind CSS, JavaScript, PHP, MySQL, Parcel)

Developed a secure password manager web application designed for storing and managing user credentials across websites.

- Built full-stack CRUD operations with a React.js frontend and PHP-MySQL backend, using Axios for smooth API communication.
- Employed encryption techniques for sensitive data, ensuring secure password storage and retrieval.
- View Source Code: [Locify](#)

Ahmedabad Live (Tech Stack: HTML, CSS, JavaScript, PHP, MySQL)

Developed a city-focused complaint management web application for residents and authorities.

- Enabled user registration, complaint submission, and real-time complaint status tracking.
- Integrated admin dashboard for complaint verification, resolution updates, and user management.
- View Source Code: [Ahmedabad Live](#)

ACADEMIC ACHIEVEMENTS

AUHackathon 2025

Participated in AU Hackathon 2025 and built FinFlow, an AI-powered financial dashboard for retail investors featuring blockchain-based identity verification, developed using JavaScript, React, Vite, and Tailwind CSS, and ranked among the top 25 teams out of 100.

PHP Certification Course– Programming Hub(Google Developer Launchpad)

Completed a 30-hour course focused on PHP fundamentals, server-side scripting, database integration with MySQL, form handling, and building dynamic, data-driven web applications.
